This form is to be completed whenever a Sundry Notice is submitted requiring detailed report of work to be performed or completed. This form shall be transmitted within 30 days of work completed as a "subsequent" report and must accompany Form 4, page 1.

5. **DESCRIBE PROPOSED OR COMPLETED OPERATIONS**

Shell had issues getting the surface casing to the permitted depth of 850' MD. The casing is currently at 786' MD. The closest waster well in the area is 450' MD. The Harper Hill 1-29 is a direct offset well 50' away. It was permitted for a 780' surface casing and set casing at 768'.

Shell requested a verbal approval on 9-27-11 and 2:40pm to sundry the casing from 850' to 786'. Verbal approval was provided by Kevin King on 9-27-11 at 4:08pm.
