FORM 15 (Earthen Pit Report/Permit) Narrative Attachment

E06 596 Pad – 335906 (Location ID)

Document Date – 09/01/2011

This pit report was prepared in support of closure activities an historic and unpermitted pit on the E06 pad. This pit was transferred to Encana by Conoco Phillips effective 3/08/2010. Encana has limited internal documentation on the original use and construction of the pit. The intent of this submittal is not to justify continued operation of the pits, but to provide a facility ID number to reference during all correspondence associated with pit closure site investigation and remediation activities.

Is the location in a “Sensitive Area?”

No, based on the distance to surface water and the depth to ground water, this location is not found in a sensitive area.

Description of pit use:

The pits on E06 well pad provided storage for produced water.
