If the location is within a Rule 317B Surface Water Supply Area buffer have all public water supply systems within 15 miles been notified: No Yes

15. Comments:

Distance to nearest railroad is greater than one mile. Nearest surface water at 246' is a barrow ditch. Nearest water well at 568' is a domestic/stock well; Receipt #3628577, Permit #277779 with a depth of 220' and a static water level of 13'. It is closer to the house; not where COGCC map shows it is. The production facilities will be added to existing facilities 1100' SW of well site, doc #400163606. The location ID 302831 was applied to since the proposed Schmidt G30-65HN is only 121' from the existing Schmidt G30-32, although they will not be padded together. Noble has consent from the surface owner to for disturbance to cross property line 60' N of well stake. Mr. Schmidt is the owner on both sides of the property line. I have also attached to the Form 2A the Rule 603.a.(2) exception location request letter and waiver that were submitted with the Form 2. Surface Use Agreement is attached to the Form 2 for the referenced well.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
