Subject: Stults 43-4 Form 2A #400206240, Noble

Liz,

The COGCC is reviewing the Form 2A (#400206240) for the Noble Stultz 43-4 location, located in the NESE Sec 4 T1S R45W Yuma County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

Due to the close proximity of the location to a draw that is tributary to the North Fork of the Republican River the following COAs will apply:

- Surface disturbance shall not encroach on the draw located 94 feet west of the proposed location.
- Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to protect the draw located 94 feet west of the oil and gas location from a release of drilling, completion, produced fluids, and chemical products.

Please feel free to contact me if you have any questions or concerns.

Thanks,

Arthur
