Thanks Carlos,

Sampling has begun on the HR 10-7 pad and we'll work to submit everything before October 31, 2011.

Daniel

Daniel,

Thanks for sending the requested information. I have reviewed the documents on behalf of Linda Spry.

- **Hells Gulch Federal 23-13A (REM # 4455)** will be closed. No further action (NFA) is required. I will send you a letter for your files.
- **Hawkins Ranch 10--7 (REM # 4453):** Please go ahead and proceed with the sampling, and submit the results by November 30, 2011 with a new Form 27 (please use REM # 4453 as reference). The new Form 27 will either recommend soil remediation or request NFA. The storm water protection riprap needs to be inspected and maintained if necessary. Please include the riprap evaluation in the Form 27.
- **Hawkins Ranch 10-4 and 10-2C (Tracking # 1984975):** Form 27 will be entered, approved, and then closed. No further action (NFA) is required. I will send you a letter for your files.

If you have questions or comments please contact Linda Spry O'Rourke or myself.

Thanks,
Carlos

Subject: Oxy Response Letter to Three PXP 2008 Releases, Email 1 of 4

Carlos,

Attached please find Oxy's response letter regarding closure documentation for three PXP 2008 releases. Due to the size of the document, I had to break it into four sections; three emails will follow this one to complete the report. The emails include:

- * Email 1 (this one): Oxy's response cover letter, Part 1
- * Email 2: Attachment A, Part 2a
- * Email 3: Attachment A, Part 2b
- * Email 4: Attachment B, Part 3

There is a lot of data to wade through, but the cover letter should summarize what is provided. Please let me know if you have any questions, comments, or if you require additional information.

Thank you for your patience and have a good weekend,

Daniel
