Subject: Pletcher 13-25 Form 2A #400221549, Noble

Liz,

The COGCC is reviewing the Form 2A (#400221549) for the Noble Pletcher 13-25 location, located in the NWSW Sec 25 T1N R47W Yuma County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

Facilities

Unless Noble is has oily waste that is being treated on the location than land farming should be removed as a method of disposal. The mud disposal should be amended to read Evaporation and burial.

Water Resources

A review of DWR permitted wells indicates that the water level in area is 99 feet (Permit # 34285). The well is located approximately 2270 feet south west of the location. The well is the closest that has a recorded water level.

Please feel free to contact me if you have any questions or concerns.

Thanks,

Arthur
