Subject: Oxy/Marathon Water Reuse Plan Surface Water Sampling Plan Update

Alex,

Per the approved Oxy/Marathon Water Reuse Plan (sundry - doc no. 2523861), Oxy committed to a quarterly surface water sampling plan (sundry - Facility ID 414404 and 414403 approved 8/9/11). The sampling plan states that samples will be collected within 60 days of the initial water transfer date. As of November 28, 2011 production water has not been transferred from Marathon to Oxy. Oxy and Marathon would like to keep this approval active and will notify you upon the initial delivery of produced water. Please let me know if you have any questions.

Thanks,

Craig
