15. Comments:

This pad is built, however since we are proposing to expand the pad size to approximately 315' X 440' as shown on the Construction Layout Drawing, we are submitting this Form 2A as required. The Reference Area is undisturbed ground immediately adjacent and to the South of the well pad, as shown in the "Looking North" location photo. #4 The Gentry B1 well was used as the reference point for well distance measurements. #6 Mud Disposal: Antero will bury cuttings onsite if disposal meets Table 910 and if there is a provision in SUA which allows for such operation. We have updated the location name to "Gentry B Pad". #14 Water Resources: The depth to ground water was determined by using static water level data of Permit# 42628/Receipt#9114078 which is approximately 388' E of location. Please find attached the notification to public water supply systems within 15 miles per Rule 317B.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
