Flare stack will be removed after a gas line is installed. One of two heater treaters will be removed when production volumes fall below the capacity of a single heater treater. The closest water well per the COGCC GIS is Water Well Permit No. 236585 which lies to the north/northeast of the location in Sec. 7 T5N R61W. The closest water well per the location drawing is located to the north/northeast of the location in Sec. 7 T5N R61W. Depth to ground water was determined from Water Well Permit No. 165930 which is the closest water well with depth to groundwater information. This water well lies to the south/southwest of the location in Section 24 T5N R62W. The closed loop system utilized to drill the referenced well is a semi closed loop system. Drilling mud and cuttings will be remediated prior to burial onsite.
