Amber,

Would you please upload this email to the same IDs indicated below, for the record?

OXY has already taken care of stock pile material so that reclamation is completed.

Thanks,

Carlos

Thank you. The stock pile on the 620-21 has been placed in the cut slope of that pad and the surface graded and seeded. Oxy is waiting to see how well the seed germination takes in the spring.

I will file this in Oxy's well file for our records.

Thank you and have a great day.

Amber,

1) Please enter/upload the two attached Form 04s and link them to:

REM # 5660

Location ID # 335456 (Cascade Creek 620-43-32)

API # 045 13486 (Cascade Creek 620-43-32)

and to ...

Location ID # 335198 (Cascade Creek 620-21)

API # 045 07211 (Cascade Creek 620-21)

2) Please upload (do not enter) the attached Form 27 (it is an update) and

the NFA letter,

And link them to the same IDs indicated above.

Thanks,

Sean,

I apologize but it seems like the documents you sent in November got lost somehow. I have reviewed the Form 27 (Nov 2011) and the Form 04s on behalf of Chris Canfield and agree that no further action is required (other than grading the stockpiled material on Cascade Creek 620-21). Please find attached the NFA letter for this remediation project.

Notes:

- I will close the Spill report doc #2213208 and refer it to REM # 5660;
- And I will close the Remediation project REM # 5660 in COGCC database.

Please let Chris Canfield or myself know if you have questions or comments.

Thanks,

Carlos

Hi Carlos,

Supposedly, hard copies of these documents were sent to Denver in mid-November. If so, they were not sent on to me and I can't find them in the database. I'm assuming you've never seen them either. Please insert them into your workflow. And let me know if you have any questions.

Thanks,

Chris

Chris

Attached please find the signed Form 27 and Form 4 documents for the 620-43-32, and the signed Form 4 for the 620-21 temporary storage location:

These are the electronic versions of the documents I showed you on 2/7/2012 that were sent to Denver via FedEx and received by D. Willis on 11/10/2011. My research on the COGCC database indicated that these files have yet to be entered into the COGCC files. Oxy is requesting that you review these for file closure.

Thanks, it was good to have a chance to sit down the other morning and just talk.

Have a great weekend.
