Good morning Rick I doubled checked with my field guy he said they will be on site the following:

4 Separators  
5 condensate tanks  
2 VOC Combustors  
1 Water tank  
No motors or pipeline

From now on I will double check when amending.

Thank you

Janni

p.s. have a great Friday and weekend.

Janni,

I am reviewing the subject Form 2A. It appears that production equipment exists on the location. Therefore, please give me an estimate of the total production facilities planned to serve the four wells so that we can include it on this Form 2A.

Thank you,  
Rick
