## FORM 15 (Earthen Pit Report/Permit) - Narrative Attachment

---

### **Figure Four Ranch 499-12-74 | 316652 (Location ID)**

Document Date – 01/27/2012

---

This pit report was prepared in support of closure activities on a historic and unpermitted pit on the 499-12-74 well pad. This pit was transferred to Puckett Land Company following bankruptcy proceedings and regulatory action by the COGCC against the previous operator, West Hawk Energy (USA) LLC. Puckett has limited documentation on the original use and construction of the pit. The intent of this submittal is not to justify continued operation of the pits, but to provide a facility ID number to reference during all correspondence associated with pit closure site investigation and remediation activities.

#### **Is the location in a “Sensitive Area?”**

No, based on the distance to surface water and the depth to ground water, this location is not found in a sensitive area.

#### **Description of pit use:**

The pits on the 499-12-74 well pad appear to have been used as drilling, completion, and production pits.
