Re: Notice of Intent to Conduct Subsequent Operations
HOPP CONRAD JR GU #2
Township 03N, Range 68W, Section 35: SWNE
Weld County, Colorado

Dear Ladies and Gentlemen:

The Colorado Oil and Gas Conservation Commission ("COGCC") has adopted guidelines and procedures regarding activities affecting the surface. These rules stipulate an affected surface owner must be given notice in writing by an operator at least seven (7) days (fourteen (14) days on irrigated lands) prior to beginning subsequent well operations or those operations that will materially impact surface areas beyond the existing access road or well site.

Kerr-McGee Oil and Gas Onshore LP ("KMG") intends to begin operations to fracture the Niobrara Codell formation in the above referenced oil and gas well(s), as soon as equipment is available, prior to October 31, 2012. If you have a crop please contact this office to determine the earliest we can conduct this operation.

It is your responsibility to notify the tenant farmer, if applicable, of this proposed operation. The COGCC's brochure for surface owner's containing the rules pertaining to notice of oil and gas operations, reclamation and opportunities for consultation thereon, as well as, the rules of procedure for filing complaints and making applications for hearings is enclosed. Should you have any questions and/or concerns, please contact Dirk Baysinger at (303) 655-4340 or his cell at (970) 302-6422.

Very truly yours,
KERR-MCGEE OIL AND GAS ONSHORE LP
