Form 2A COAs:

Group	User	Comment	Date
Agency	caplank	Operator must implement best management practices to contain any unintentional release of fluids. Apply to both the well location and produced water tank location.	04/12/2010
Agency	caplank	Location is in a sensitive area because of close proximity to surface water, therefore, operator must ensure 110 percent secondary containment for any volume of fluids contained at well site during drilling and completion operations.	03/26/2010
