Bill,

We are ok with bill barrett corp's well. They have posted a blanket bond.

Thanks

Tim

Subject: Bonding for the Barrett Chappell 15S-15-37-17 doc.# 400261951

Hello Tim,

Barrett has applied for a permit to drill the Chappell 15S-15-37-17 in section 15 Twp 37N Rng 17W.

This would be located on Fee Surface and State Minerals and the horizontal well would have the top of productive zone and the bottom hole located in sec. 22 Twp 37N Rng 17W.

Does Barrett have the bonding necessary as far as the State Land Board is concerned?

Thanks,

Bill
