

**Kinder Morgan CO2 CO LP, YG 1 Pad, SWNE Sec 14 T37N R18W, Montezuma County, Form 15#400254733 Pit Permit Conditions of Approval, Associated Form 2A#400224242.**

**COA 90** - Notify COGCC Oil and Gas Location Assessment (OGLA) Specialist for Western Colorado (Dave Kubeczko; email [dave.kubeczko@state.co.us](mailto:dave.kubeczko@state.co.us)), the COGCC Environmental Protection Specialist for Southwest Colorado (Karen Spray; email [karen.spray@state.co.us](mailto:karen.spray@state.co.us)), and the COGCC Field Inspection Supervisor for Southern Colorado (Mike Leonard; email [mike.leonard@state.co.us](mailto:mike.leonard@state.co.us)) 48 hours prior to start of construction of the pit, as well as 48 hours prior to pit liner installation.

**COA 12** - Any pit constructed to hold salt based fluids and/or cuttings must be lined.

**COA 11** - All cuttings generated during drilling with high chloride/salt based muds must be kept in the lined drilling pit, or placed either in containers or on a lined/bermed portion of the well pad prior to offsite disposal. The moisture content of any drill cuttings in a cuttings pit, trench, or pile shall be as low as practicable to prevent accumulation of liquids greater than de minimis amounts.

**COA 5** - Operator must implement best management practices to contain any unintentional release of fluids, including any fluids conveyed via buried or temporary surface pipelines.

**COA 39** - If the pit location on the pad changes from the original Construction Layout Drawings, revised drawings must be submitted via a Form 4 Sundry. If the new pit location requires the slopes to be placed partially or completely in fill, then the pit and fill slope must be designed and certified by a professional engineer, subject to review and approval by the COGCC director prior to construction of the pit. The construction and lining of the pit shall be supervised by a professional engineer or their agent. The entire base of the pit must be in cut.

**COA 49** - The pit must be fenced and netted. The operator must maintain the fencing and netting until the pit is closed.

**COA 27** - Submit additional disposal facilities (wells, pits, etc.), if necessary (i.e., if original disposal option changes), for pit liquid contents to COGCC via a Form 4 Sundry prior to disposal.

**COA 28** - Pits used for salt based fluids and/or cuttings shall be closed in accordance with an approved Site Investigation and Remediation Workplan, Form 27.

**COA 91** - At the time of pit closure, operator must submit disposal information for solids, if necessary, via a Form 4 Sundry Notice to the COGCC Location Specialist for Western Colorado (Dave Kubeczko; email [dave.kubeczko@state.co.us](mailto:dave.kubeczko@state.co.us)). The disposal method will need to be approved prior to operator starting pit closure.
