THANKS BILL,

...and YES, I overlooked the road and put the distance of the nearest building (from form 2A). However, I measure about 2120'; Amanda? (Ecosphere) put 2494' (docnum 400224219). It looks like 2120' is more accurate. You can make that change too.

This will also apply to the vertical pilot, docnum 400224220.

Thanks again,  
Paul

Hey Paul,  
While we're on the YA 7 would you check the distance to the nearest Public road. Was given as 3753, please review the distance to 14.00 (looks to be a maintained road) to the west of the SHL.  
The submitted changes have been made.  
Thanks,  
Bill
