Attached please find invoices from excavation done 12/19/11 including waste management invoice of same day from Buffalo Ridge landfill in Keenesburg. 18 cubic yards was hauled off to landfill. Our pumper, Elmer Fritzier, was in charge of getting the work done. I am at a bit of a loss since I was under the impression we had completed the work. Please advise your thoughts.

Subject: Cook Battery - NOAV #200337810

Dana,

Attached is a copy of a transmittal letter and NOAV issued in regard to rule violations at the Cook Battery in Washington County. COGCC inspected the location again on January 6, 2012, and there was no indication that any oily waste had been removed from the site. The originals were sent today via certified mail. Please let me know if you have any questions regarding the required corrective actions. Thank you,

John Axelson, P.G.
