**Re: Offset Surface Owner Exception Waiver
Distance from Surface Property Line
Facility Name: Bestway Directional Project #1
Northeast Quarter of Section 2, Township 5 North, Range 66 West
Greeley, Colorado**

To Whom It May Concern:

The Colorado Oil and Gas Conservation Commission (COGCC) has adopted guidelines and procedures regarding oil and gas activities affecting the surface. Mineral Resources, Inc. (MRI) is requesting an exception to Rule 603.a(2) of the Rules and Regulations of the COGCC. Rule 603.a(2) requires the well to be a minimum distance of one hundred fifty (150) feet from a surface property line. MRI is proposing to drill within 150' of the property line of the City of Greeley's property known as Outlot B of the Best-Way Park Minor Subdivision. This location was chosen in an effort to minimize the amount of surface disturbance and the impact to surrounding land uses.

By signing this letter you hereby grant your consent to Mineral Resources, Inc. to locate the wells within 150' from the property line of Outlot B of the Best-Way Park Minor Subdivision.

We would like to thank you for your assistance in this matter. If you have any questions, do not hesitate to call us at (970) 226-0342.

Sincerely,

LAMP, RYNEARSON & ASSOCIATES, INC.

Daniel Hull, PE
Designated Agent
Mineral Resources, Inc.

ddh/jz

The City of Greeley consents to locating wells and associated production equipment within 150-feet of the aforementioned property line.
