Jake,

The COGCC is reviewing the Form 2A (#2288362) for the Kuenzler & Flora Anshutz 1-5 location, located in the NWNE Sec 5 T19S R44W Kiowa County, Colorado. The COGCC requests additional information and recognition of the conditions of approval prior to passing the Oil and Gas Location Assessment (OGLA).

Date to commence construction – The proposed date to commence construction is 5/15/2012 which is prior to the end of the public comment period. The public comment period ends on 5/17/2012. The likely first day construction could take place is 5/18/2012. Please provide an alternative date to 5/15/2012.

Groundwater- A review of water wells in the vicinity of the proposed location indicates that water levels are approximately 65 feet (water well permit # 50101). The form 2A will need to be amended to from 85 feet to 66 feet.

Distance to surface water – The nearest surface water appears to be approximately 10,000 feet south east of the location. The 2A should be amended to 10,000 feet.

Please feel free to contact me if you have any questions or concerns.

Arthur
