Form 2A COAs:

Group	User	Comment	Date
Agency		A sound barrier shall be in place during drilling and completion operations, by placing hay bales in an arc shape around the location to deflect sound, light and the visual aspects of the drilling operation. Operator shall insure that this mitigation addresses wellsite employee emergency escape routes.	07/14/2010
Agency	youngr	Location is in a sensitive area because of shallow groundwater; therefore, either a lined drilling pit or closed loop system is required.	05/25/2010
Agency		Drill rig(s) must be equipped with mufflers to reduce rig engine noise. Time operations where feasible to reduce and nighttime noise coming from the drilling location. Minimize light disturbance by directing lights away from the subdivision and using light diffusing material on individual drilling rig lights.	07/14/2010
Agency		Control access to the site to authorized personnel only during drilling and completion operations.	07/14/2010
