Re: Waiver of Rule 318A(I).c.(1)
Echeverria 2B-2H
Surface Location – 554' FNL, 1457' FWL
Township 2 North, Range 67 West
Section 2: NE4NW4
Weld County, Colorado

Dear Mayrene:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Echeverria 2B-2H well at a surface location 554 feet from the north line and 1457 feet from the west line of Section 2, Township 2 North, Range 67 West (see attached survey plat). This well is being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC") Rule 318A(I), known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule (Except the City and County of Broomfield). Rule 318A(I).c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The Echeverria 2B-2H well was staked at a location 514' northwest of the existing Echeverria 21-2 well located in the same drilling window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Echeverria 2B-2H well by waiver of the COGCC Rule 318A(I).c.(1).

If this meets with your approval, please sign and date both originals of the letter, keeping one for your files and returning one to the undersigned.
