**Chapman 19-06 API 05-125-10771 SENW/4 Sec 19 T 1S-R44W Weld County
Remediation Project #6783**

Based on review of information presented in your [Form 4 Sundry Notice approved June 1, 2012](#), it appears that no further action is necessary at this time, and Remediation Project #6783 has been closed with a Form 27a (document #200352786). However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards, or if ground water is found to be significantly impacted, then further investigation and/or remediation activities may be required at the site. Please retain a copy of this email as verification of COGCC concurrence with the closure request.
