**Subject:** Notifications for Searcy Gulch 1-27 Cement Jobs

Aleta,  
Please enter the following information for the surface jobs for Searcy Gulch 1-27:  
Hole Size: 13.5"  
Casing Size: 10.75"  
Comments: Pumped 67.7 bbls of lead cement and 17.5 bbls of tail cement prior to the entire string pressuring up. POOH and drilled out casing. Ran CBL found TOC at 640'. Discussed with Jay Krabacher of COGCC and ran 2 1" grout strings to 256' and cemented to surface with 32 bbls of 16.0 ppg Neat Class G. Shell Committed to cementing the intermediate casing to surface.

Regards,  
Keith
