COMPLETED INTERVAL REPORT

The completed interval Report, Form 5A, shall be submitted within thirty (30) days of completing a formation (successful or not), when a formation is temporarily abandoned or permanently abandoned, for a recompletion, reperforation or restimulation, or when a formation is commingled. Fill out a section for each formation. Attach as many pages as required to fully describe the work. List in order of completion.

Comment:

Repair work occurred on the Mitchell Federal 32-11 well from 3/29/12 - 4/3/12 to repair a hole in the tubing. The tubing was pulled but no holes were discovered and the tubing tested well. Tubing was relanded at 6,052' and the well was returned to production.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
