Randall-That will work.

Amber-Please upload this email chain to: Facility #335618

Thanks
Alex

Subject: RE: Unocal 5 Water Transfer Facility

Alex – I know you are in the field all week so in response to your e-mail below, I thought I would propose the following:

The timeline for submittal of the annual report for the subject facility was not mentioned in the approved E&P Waste Management Plan. As such, I propose that PDC submit the annual report by June 29, 2012 as previously stated along with a Form 4 – Sundry Notice. This would allow documentation of 1) PDC's submittal of the annual report, and 2) the COGCC's acknowledgement of receipt and approval of the annual report.

Let me know what you think. Thanks,

Randall H. Ferguson

Subject: RE: Unocal 5 Water Transfer Facility

Randall,

Not to create more paperwork, but please include the request on a Sundry.

Thanks
Alex

Subject: Unocal 5 Water Transfer Facility

Alex:

As per our recent conversation, the following information is being provided:

RE Unocal 5 Produced Water Transfer Facility
NWSW 4 -T6S – R96W
Garfield County, Colorado
Facility #335618

The Form 4 – Sundry Notice for the subject facility was approved by the COGCC on 4/25/11. The associated E&P Waste Management Plan has a commitment to submit an annual report as follows:

Annual Report

An annual report will be prepared for the COGCC that will include:

- A summary of spills, incidents, or upset conditions and subsequent corrective action;
- Any changes to the operating plan or modification of equipment;
- Facility-specific training conducted for PDC personnel or contractors;
- Results of any internal PDC or third-party audits conducted at the facility including annual SPCC inspections;
- A tabulated summary of waste generated records as required by Rule 907.b.

PDC respectfully requests an extension for submitting the annual report to June 29, 2012.
