Re: Walters lease [Facility #: 102634]  
Section 21-T2N-R49W  
Washington County, CO

Dear John:

Earlier this spring we removed some impacted soil from an old abandoned skim pit located at the tank battery at the referenced facility. We set aside the impacted soil on location and sampled this soil per your instructions. We also took a soil sample from the base of the excavated pit (after the soil had been removed).

Enclosed are two Form 27s. One form is requesting permission to close the skim pit. The second form is requesting permission to landfarm and bioremediate the soil that was previously removed from the pit.

Please let us know if you need any additional information.

Sincerely,

**DIAMOND OPERATING, INC.**
