---

Daniel,

I missed adding some standard verbiage along with the approval for this sundry:

Based on the information provided in Sundry 2215977, the COGCC staff approves the closure of this pit. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, then OXY may be required to conduct further investigation and/or remediation at the site.

Amber, please associate this email with the sundry in our system.

Thanks.

Daniel,

Attached is an approved sundry. Please print for your records; an original will not be coming in the mail.

Amber,

Please approve this sundry in our system.

Thanks.
