John,

COGCC has assigned spill tracking #2229279 to the release at the subject location. A Form 27 will be required to document cleanup of this release. After impacted soils are removed, a sufficient number of representative soil samples shall be collected to verify compliance with Table 910-1. In addition, surface water samples shall be collected to verify compliance with applicable standards. Include disposal documentation for all waste generated from this cleanup. If you would like to discuss a possible sampling/analysis plan, please give me a call.

Please reference the spill tracking number on future correspondence related to this cleanup.  
Thank you,

John Axelson, P.G.
