Sec. 29: NW1/4SW1/4  
Lincoln County, Colorado

### Description of Well Site and Construction Area

1-3 acre site with access road for drilling of oil and gas well. Terrain is flat with native grass and sagebrush. Access road will run along East edge of surface water. No receiving/surface water will be affected by well pad or access road. Dirt berm will be placed on the West side of well pad to protect surface water located 24' from edge of well pad. Surface Roughening will be used on low side of drill site to reduce speed of runoff, increase infiltration, reduce erosion, trap sediment and prepare soil for reseeding. Mud and Water Pits will be reclaimed within 6 months weather permitting. Topsoil will be separated and spread on drill site as final operation before reseeding operations. To prevent soil erosion site will be disked and straw crimped in or manure spread.

Stormwater Management Plan (SWMP) is on file in Wiepking-Fullerton Energy, L.L.C. office.

Spill Prevention, Control and Countermeasure Plan is on file in Wiepking-Fullerton Energy, L.L.C. office.

Job: 10178 Mahalo #11

Inv # 1959
