Attn: Mr. Thom Kerr, Acting Director

RE: **Request to the Director for 318A.m. GWA Minimum Intrawell Distance Exception**  
**Moser PC G34-65HN**  
Niobrara New Drill  
Township 4 North, Range 65 West, 6th P.M.  
Section 34: SW/4NW/4: 2396' FNL & 241' FWL (Surface Location)  
Weld County, Colorado

Dear Mr. Kerr:

Noble Energy Inc. (NEI) is planning to drill the above mentioned well to the Niobrara formation(s).

The lateral path of NEI's proposed horizontal well will be less than the 150' minimum distance from another well(s) as required by Rule 318A.m. Noble is the Operator of the encroached upon well, therefore no waiver is required. The encroached upon well (listed below) will not be drilled at the time of drilling of the above well, so no mitigation is necessary. Please see Noble's Anti-Collision Mitigation BMP noted below.

Mark G35-24 (API: 05-123-35717)  
SWNE 35 4N 65W 6PM

**Anti-collision:**

Prior to drilling operations, Operator will perform an anti-collision scan of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision scan will include definitive MWD or gyro surveys of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify bottomhole location. The proposed well will only be drilled if the anti-collision scan results indicate that there is not a risk for collision, or harm to people or the environment. For the proposed well, upon conclusion of drilling operations, an as-constructed gyro survey will be submitted to COGCC with the Form 5.

Noble respectfully requests that the COGCC review the enclosed information and approve the requested exception location Application for Permit to Drill the captioned well.

Respectfully,

Justin Garrett  
Regulatory Specialist
