RE: Request for "Issuance without Consultation" for Gulfport Energy Corporation's Ridgeview # 32-16-1 Well Location in Moffatt County.

Mr. Thom Kerr,

Gulfport Energy Corporation is hereby requesting issuance without consultation under Rule 303.1.(2) to subsequently construct, drill, complete, and operate the following proposed well:

NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, T06N, R91W, 6th P.M.
Moffatt County, Colorado
Ridgeview #32-16-1
Form 2 Doc: 400308794
Form 2A Doc: 400308846

Situation and COGCC Rule 303.1.(2)

Gulfport is threatened with losing a locally located rig around 20 August 2012. Without a permitted location to continue local operations the rig would be forced to lay-down or leave the area for other work. Should traditional-term COGCC approvals be pursued Gulfport would need to locate and incur a large sum charge to relocate a distant rig or incur standby fees to have the nearby rig lay idle for approximately 45 days. The location has electronically filed a Form 2 and Form 2A on 24 July 2012.

Waivers Attached

Attached to this letter are signed Rule 305.c. waivers from State of Colorado Board of Land Commissioners (Landowner) and Mr. Jeff Comstock of Moffat County (Local Government Designee [LGD]).

Sincerely,

A handwritten signature in black ink, appearing to read 'David Segobia'.
