Subject: FW: New 2A Received for Review #[02A]2237332
Date: Tuesday, August 14, 2012 8:26:54 AM
Importance: High

Good morning,

CPW's review of this well site has determined the Lesser prairie-chicken lek is non-active (no birds within last 5-years) and we have no specific BMPs to offer protection. However, in our on-going effort to recover this state listed bird we would recommend that construction be limited to one well only (no compressors or other large facilities).

Please call if you have any questions.
