Amber,

Please enter/upload the attached Form 27 remediation work plan, and link to:

- Location ID # 332855
- API # 123 13197

Please upload this email as well.

Please copy Ryan, John Axelson, and myself with the REM #.

Thanks,

Ryan,

The remediation work plan for the **WPF III A18-12,-13 tank battery** has been approved. As soon as I receive the Remediation identification number (REM #), I will send you a NFA letter for your records, and will close the project.

Based on review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

Thanks,

Carlos
