Re: Remediation Project
ColoMeadow Farms #5
REM # 3455
API # 001 06269
Adams County, Colorado

Dear Mr. Bonaventura,

Colorado Oil and Gas Conservation Commission (COGCC) staff is reviewing documentation concerning outstanding case closure and/or remediation issues across the state. Projects will be closed when remediation and/or pit closures have been completed and documented. On the other hand, COGCC may require additional investigation or remediation if there are no records of work completed or if inspection identifies environmental issues at the site..

HEC Petroleum submitted a Form 27 Site Investigation and Remediation Work Plan on March 31, 2005 to remediate identified impacts and to close pits. That's the last document that COGCC has on file. Do you have any more recent documentation regarding remediation and pit closure work at this site?

Your help will be greatly appreciated. If you require any additional information, please contact John Axelson (John.Axelson@state.co.us), Bob Chesson (Robert.Chesson@state.co.us), or myself (Carlos.lujan@state.co.us).

Sincerely,

Carlos A. Luján for
John Axelson.
