**Loudder 2-X Pit Closure NFA Request, SWSE Sec 7, T4S R53W, API 05-121-09042, Location ID #317123**

COGCC has reviewed the Pit Closure/No Further Action request report submitted on your behalf by LTE October 3, 2012 for the above referenced location, and concurs with the plan to back fill and reclaim the skim pit. However, you must submit a Form 27 Remediation Plan (separate from the Remediation Plan #7094 for the assessment of groundwater impacts from the pit complex for NOAV #200350687). Separate Form 27s are necessary for each pit closure for tracking purposes.

Please submit the Form 27 requesting NFA directly to me via email as soon as possible. You can proceed with the site work, including the back fill of the excavation, in the meantime. Please contact me or John Axelson if you have any questions.

Thank you,

Subject: Loudder 2-X Pit Closure Letter/NFA Request (NOAV #200350687)

To: "Axelson, John" &lt;John.Axelson@state.co.us&gt;

Cc: Rodney Reynolds &lt;Reynoldsr@berexco.com&gt;

John,

LTE is submitting the attached Loudder 2-X Pit Closure Letter and No Further Action Request and supporting documentation, on behalf of Beren, for oil skim pit closure activities at the above referenced subject site located in the SWSE Sec. 7 T4S R53W. A composite confirmation soil sample was collected from the excavated oil skim pit at this location and analytical results indicate concentrations are compliant with Table 910-1 Concentration Levels. Beren hauled approximately 430 yards of impacted soil to the Buffalo Ridge landfill in Keenesburg, Colorado for disposal. As all impacted soil was removed from the site, Beren is requesting a No Further Action determination for the pit closure.

Beren has replaced the oil skim pit with a skim tank that is already operational. However, the excavation remains open at the site until the NFA is granted by the COGCC. As such, a timely NFA would be greatly appreciated so the pit can be reclaimed before any inclement weather begins to set in.

Should you have any questions, please call Rodney Reynolds at Beren at (785) 331-9809.

Thanks,

Brian
