WELL ABANDONMENT REPORT

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set.

A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

Technical Detail/Comments:

This report is being submitted to correct inaccuracies in the status of this well. The previous operator, EnCana Oil & Gas (USA) Inc. did not, from what records indicate, file a Subsequent Report of Abandonment for the procedure performed in 2009. This well has been plugged and abandoned by the EnCana, and the site has been reclaimed. A copy of the original, un-submitted report as written by EnCana has been included, along with a WBD & copy of the cement ticket. All information included in this filing was ascertained using EnCana records and is correct to the best of Patara's knowledge. Please contact the undersigned with any questions or concerns. Thank you.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
