Proposed location is not located within one mile of a railroad, building, or different property owner. As noted on the hydrology map, there is no surface water present within one mile per field observation. The topo map shows water 600 feet away, however there is none present. The water shown on the map is actually a ditch that is dry. If well is completed a skim pit, as well as production pit will be constructed to handle produced water. Please use the east facing location picture for the picture required for the reference area for the proposed location.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
