**Inspector Comment:**

Inspection performed as follow up to Remediation Project #7278. Salt scar has been ripped and amended as proposed in approved Form 27. New sign was installed at battery and produced water tank was properly labelled. Still need to improve secondary containment around water tank and perform maintenance on pits to comply with Rule 902. Perform routine maintenance on reclamation area to prevent soil erosion and weed infestation. Notify COGCC via Sundry Form 4 when final reclamation is complete with request to inspect location and close remediation project.
