Based on review of information presented on the Form 4 Sundry submitted on 10/29/2012, it appears that no further action is necessary at this time, and COGCC approves the No Further Action request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, then further investigation and/or remediation activities may be required at the site. The **Spill Tracking Number** has been changed to closed status in the Colorado Oil & Gas Information System. Please maintain a copy of this email as verification of closure.

Alex,

Please see the attached follow-up information regarding a produced water spill release that occurred on 8/6/2012 at the Jacobs 29-1 location.

The spill/release tracking number is 2230213.

Please contact me if you have any questions or comments.

Regards,

Brett M. Francois
