Jacob,

COGCC has reviewed the No Further Action Request for the Nix 1 Flowline Release; API 05-123-11926; COGCC Spill Tracking #2215191. Before the No Further Action request can be granted, please address the following items:

1. Was the flowline repaired and retested? There is no discussion of this in the monitoring reports. Please provide additional information regarding the timing of any excavation and repair.
2. Was any soil removed during any flowline excavation and repair, or was the soil returned to the excavation?

Thank you for your attention to this matter.

Regards,

Rick Allison

Steve,

Here is the NFA report you requested. If you still cannot view it, I will send you a hard copy.

Let me know if you have any questions,

Thank You,
