To: Greg Deranleau <greg.deranleau@state.co.us>

Greg-

we had to update the Hydrology map also, along with the location drawing. Both are attached, and thanks for your help.

Subject: Vecta Oil and Gas Ltd. Bierstadt 32-33 Form 2A #400336191

Mr. Goolsby,

COGCC is reviewing the referenced Form 2A application. As submitted, the construction date and date of interim reclamation are 11/12/12 and 12/12/12, respectively. The earliest this

application will be passed is 11/26/12 (public comment is open until 11/24, but the next business day is 11/26). Therefore, please allow me to change the construction date to 11/27/12 and the interim reclamation date for one month later (12/27/12).

As submitted, your Form 2A states that 4.00 acres will be disturbed. However, your Location Drawing indicates a pad size of 300' x 300', equivalent to 2.06 acres. Please provide either a revised Location Drawing or a statement correcting the planned disturbance acreage, or explaining the discrepancy.

Thank you.
