Subject: Loudder 2-X Pit Closure Letter/NFA Request (NOAV #200350687)
To: "Axelson, John" <John.Axelson@state.co.us>
Cc: Rodney Reynolds <Reynoldsr@berexco.com>

John,

LTE is submitting the attached Loudder 2-X Pit Closure Letter and No Further Action Request and supporting documentation, on behalf of Beren, for oil skim pit closure activities at the above referenced subject site located in the SWSE Sec. 7 T4S R53W. A composite confirmation soil sample was collected from the excavated oil skim pit at this location and analytical results indicate concentrations are compliant with Table 910-1 Concentration Levels. Beren hauled approximately 430 yards of impacted soil to the Buffalo Ridge landfill in Keenesburg, Colorado for disposal. As all impacted soil was removed from the site, Beren is requesting a No Further Action determination for the pit closure.

Beren has replaced the oil skim pit with a skim tank that is already operational. However, the excavation remains open at the site until the NFA is granted by the COGCC. As such, a timely NFA would be greatly appreciated so the pit can be reclaimed before any inclement weather begins to set in.

Should you have any questions, please call Rodney Reynolds at Beren at (785) 331-9809.

Thanks,

Brian

Does the doc have to be imported too? Only the Form 27 is in images.
