On December 15, 1959, the Commission issued its Order No. 25-9 which, among other things, approved a unitization agreement covering operations of the "D" sand reservoir of the Unit Area, and authorized a water injection program.

On September 5, 1963, The British-American Oil Producing Company, as Unit Operator of said "D" Sand Reservoir Unit Area, on its own behalf and on behalf of the other owners and producers within the Unit Area, filed with the Commission an application for an order authorizing re-entry of the Shell Peterson No. 3 dry hole located in the SW 1/4 NW 1/4, Section 18, Township 8 North, Range 53 West, Logan County, Colorado, in order to equip this well for water injection so as to prevent migration of oil from said Unit Area and thereby protect the correlative rights of all unit interest owners.

NOTICE IS HEREBY GIVEN, that The Oil and Gas Conservation Commission of the State of Colorado, pursuant to said application, has set the above entitled matter for hearing on:

DATE: Tuesday,
September 17, 1963

Pursuant to said hearing in the above entitled matter, at the time and place aforesaid, or at any adjourned meeting, the Commission will enter such orders as it deems appropriate to prevent the waste of oil and gas, either or both, in the operation of said field, and to carry out the purposes of the statute.
