Provide a detailed description of the accident, problem, and cause (equipment failure, human error, etc.):

An employee from RLP Field Services cut his finger while he was checking a steam heater on the Cuttings Press. The RLP employee's finger was cut by a fan blade from the heater. There was a small opening in the back panel of the unit. The employee was feeling for heat and he ran his hand over the rear panel. As he pulled his hand across the panel, his right index finger went into the opening and the blade cut the tip of his finger.
