---

Jerry,

I had our scanning department upload all of the information we have regarding the above referenced facility. You should now be able to view all of the documents we have.

I have included Rule 704 and 908.g. regarding Centralized E & P facilities. Martha Ramos at 303-894-2100 X 5123 will be able to assist Antero on the financial compliance. I am the point of contact for these facilities and work with regarding Rule 908 requirements. Before the summer gets away from us, I would like to schedule a site visit with you and/or representatives.

Let me know if you are unable to view the documents.

Thanks

Alex

**704. Centralized E&P waste management facilities.**

An operator which makes application for an offsite, centralized E&P waste management facility shall, upon approval and prior to commencing construction, provide to the Commission financial assurance in an amount equal to the estimated cost necessary to ensure the proper reclamation, closure, and abandonment of such facility as set forth in Rule 908.g, or in an amount voluntarily agreed to with the Director, or in an amount to be determined by order of the Commission. Operators of centralized E&P waste management facilities permitted prior to May 1, 2009 on federal land and April 1, 2009 for all other land shall, by July 1, 2009, comply with Rule 908.g and this Rule 704. This section does not

**908. g. Closure.**

(1) **Preliminary closure plan.** A general preliminary plan for closure shall be submitted with the centralized E&P waste management facility permit, Form 28. The preliminary closure plan shall include, but not be limited to:

A. A general plan for closure and reclamation of the entire facility, including a description of the activities required to decommission and remove all equipment, close and reclaim pits, dispose of or treat residual waste, collect samples as needed to verify compliance with soil and ground water standards, implement post-closure monitoring, and complete other remediation, as required.

B. An estimate of the cost to close and reclaim the entire facility and to conduct post-closure monitoring. Cost estimates shall be subject to review by the Director.
