Dear Mrs. Blaney,

Colorado Oil and Gas Conservation Commission (COGCC) staff has received the Notice of closure/reclamation Form 04 submitted on December 20, 2012 for the referenced site. Based on the review of data presented, it appears that no further action is necessary at this time at this site. However, should future conditions at the site be discovered of contaminant concentrations in soils exceeding COGCC standards or if groundwater is found to be significantly impacted, COGCC may require that further investigation and/or remediation be conducted.

The remediation project has been closed, and the pit status has been changed from Active (AC) to Closed (CL). If you require any additional information, please call me at (970) 625-2497.

Sincerely,

Carlos Luján for
Chris Canfield, P.G.
