RE: Exception Location Request Rule 318A(I).a.(1), and 318A(I).c.(1)

Ione 1G-10H: 768' FNL, 1312' FEL (SHL)

Dear Director:

Please let this letter serve as a request for administrative approval of exception locations for the captioned oil and gas wells.

Encana Oil & Gas (USA) Inc. ("Encana") proposes to drill the above referenced well at a surface location outside a legal drilling window as defined by Rule 318A(I).a.(1), and at a surface location further than 50' from an existing well as defined by Rule 318A(I).c(1). Signed waivers of rules 318A(I).a.(1) and 318A(I).c(1) by the surface owner are enclosed.

Thank you for your assistance in this matter.

If you have any questions or comments, please contact me at 720-876-3761.

Sincerely,

Encana Oil & Gas (USA) Inc.

RE: Waiver of Rule 318A.a.(1) for the following Wells:
Ione 1A-10H, Surface Location 767' FNL, 1372' FEL
Ione 1B-10H, Surface Location 767' FNL, 1362' FEL
Ione 1C-10H, Surface Location 766' FNL, 1352' FEL
Ione 1D-10H, Surface Location 768' FNL, 1342' FEL
Ione 1E-10H, Surface Location 768' FNL, 1332' FEL
Ione 1F-10H, Surface Location 768' FNL, 1322' FEL
Ione 1G-10H, Surface Location 768' FNL, 1312' FEL
Section 10, T2N, R66W
Weld County, Colorado

Dear Mr. Cannon:

Encana Oil & Gas (USA) Inc. ("EnCana") staked the above mentioned wells at surface locations as indicated above from the north and east lines of Section 10, Township 2 North, Range 66 West (see attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.a.(1) which reads:

"In the Greater Wattenberg Area ("GWA"), operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recomplete a well (GWA well") and to commingle any or all of the Cretaceous Age formations.

(1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); ...

These wells were staked at locations 153 north of the defined 400' window. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.a.(1).

Dear Mr. Cannon:

Encana Oil & Gas (USA) Inc. ("Encana") staked the above mentioned wells at surface locations as indicated above from the north and east lines of Section 10, Township 2 North, Range 66 West (see attached Well Location Certificates). These wells are being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.c.(2) which reads:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

These wells were staked at locations between 399' and 450' northwest of the existing Ione #2 well. As these locations were staked with your consent and approval, Encana respectfully requests your consent to an exception location for the above mentioned wells by waiver of the COGCC Rule 318A.c.(2).
