To: "Allison - DNR, Rick" <rick.allison@state.co.us>

Rick,

I've attached another copy of the Location Drawing. I hope it is better quality. I do not know any of the water well information.

I try to check into it.

Thanks,

Christi

Subject: Continental Resources Buchner 2-2H Form 2A 400352556

Christi,

I am reviewing the Form 2A location assessment for the Buchner 2-2H location. Please make note of or address the following:

1. I changed the distance to nearest water well to 561 feet, based on the data provided on the Location Drawing.
2. I changed the Sensitive Area Designation to Yes because the location is within 1/8 mile of domestic water well.
3. Water wells: The water wells shown on the Location Drawing to be 561 feet and 575 feet from the location do not appear to be registered with the Division of Water Resources. Do you have any information regarding their registration status? You may want to encourage the surface owner to pursue registration of their water wells.
4. Location Drawing: The resolution of scanned Location Drawing is very low. Please provide a cleaner copy of the Location Drawing.

Contact me with any questions regarding this Form 2A.

Regards,

Rick Allison, P.G.
