Andrea,

I am reviewing the Form 2A location assessment (Doc #400350741) for the Wells Ranch USX AE 31-99HZ Tank location. Please clarify the following:

1. The size of disturbed area during construction and interim reclamation is listed as 73.00 acres. Please provide a corrected size.
 2. The comments state that the Reference Area is west of the location, yet the Reference Area Picture is facing east. Please clarify the Reference Area location.
 3. Please send me the Surface Use Agreement authorizing construction of the tank battery.
- Contact me with any questions regarding this Form 2A.
